- Back Up Power
- Development Farm
- Gated Community
- Jungle Views
- Mountain View
- Air Conditioning
- Close To Schools
- Fully Landscaped
- Income Producing
- Long Term Rental
- Multi-Family

Property Details

Flor de la Vida is a visionary residence inspired by the sacred geometries of nature, creating a harmonious balance between architectural innovation and ecological awareness. The design draws from the Flower of Life, a symbol of interconnectedness, with curved structures that flow organically with the terrain. These geometries not only guide the visual aesthetics but also shape the home's spatial logic, emphasizing growth, renewal, and a connection to the environment. The result is a unique architectural experience that feels deeply rooted in the natural rhythms of the tropical forest. The home prioritizes sustainability and functionality, using locally sourced materials such as bamboo, wood, and stone, paired with natural fibers and earthen finishes. Its multi-level design is seamlessly integrated into the land, connected by fluid pathways that mimic a natural spiral, representing life's organic cycles.
