- Furnished Fully
- Internet

Property Details

Tucked in front of a protected green area, Los Nidos blends innovative design with sustainable functionality, offering residents a home deeply connected to its natural surroundings. The building’s thoughtful orientation ensures uninterrupted views of the greenery while maintaining privacy from neighboring properties. Its strategic placement minimizes the overall environmental footprint, preserving the integrity of the landscape while creating a living space that feels both open and secure. One of the standout features of Los Nidos is its focus on cross-ventilation, addressing the common challenge of limited airflow in traditional apartment designs. The open interior-facing façade is designed to channel fresh breezes through the building, ensuring each unit benefits from natural ventilation and reducing reliance on energy-intensive cooling systems. This approach not only enhances comfort but also promotes a healthier living environment.
