Property Type: Property • bedrooms: 5 • size: 563 sq m • Year Built: 2010

• Status:

Property Details

Introducing Casa Samba, one of Manuel Antonio's most recognized and successful luxury vacation rental homes. This Balinese-inspired estate blends natural elegance with sweeping views of the National Park and surrounding rainforest, making it a guest favorite year after year. The entry level welcomes you into a newly renovated kitchen and dining area, fully air-conditioned and designed for comfort. Just beyond, the space opens to a deck and pool terrace, the perfect spot to enjoy panoramic views and daily wildlife encounters. Two guest suites extend from this level, including the Canopy Suite with a king bed nestled in the treetops and the lower-level suite with two full beds. One level up, the master suite awaits — a private retreat with a king bed, luxurious bathroom, handcrafted ceramic sinks, and a private Jacuzzi tub. Higher still, the villa features an open-air living and game room suspended in the jungle canopy, creating one of the most unique gathering spaces in Manuel Antonio.
