Property Details

Flamingo Marina Towers is a promising new development opportunity located just steps from the brand-new Flamingo Marina, in one of Costa Rica's most desirable coastal destinations. The project was conceived as an exclusive residential community featuring 14 modern condominiums and 2 ocean-view penthouses, designed to combine contemporary architecture, quality construction, and an exceptional location. The first level of the project has already been built, and the development is now seeking a joint venture partner to help bring the vision to completion. Once completed, Flamingo Marina Towers is planned to offer spacious residences with open-concept layouts, private balconies, high-end finishes, and a design focused on maximizing natural light, comfort, and ocean views. The planned amenity package includes a community pool and jacuzzi, BBQ area, playground, landscaped green spaces, 24-hour gated security, elevator access, assigned parking, and private owner storage.
