Property Details

Located in Playa Hermosa, this exceptional architectural residence represents a rare opportunity in the luxury market of Costa Rica's Nicoya Peninsula. Designed by renowned Mexican architect Manuel Cervantes, the property was conceived as a peaceful and timeless retreat, deeply connected to its natural surroundings. Recently completed in November 2025, the residence reflects a refined approach to luxury, focused on authenticity, natural materials, and understated elegance rather than excess. Built with Pacific cedar, Nicaraguan brick, and chukum finishes, the home blends beautifully into the tropical landscape of Playa Hermosa. The residence is composed of several independent pavilions connected by terraces, gardens, and open-air spaces. The main pavilion features a spectacular sunken living area, dining room, and kitchen, creating a seamless indoor-outdoor living experience. A second pavilion serves as a media room, office, and additional social space, while the remaining pavilions host five spacious en-suite bedrooms.
